CREATE A CUSTOMIZED AUDIOGRAM

3-Easy Steps

Step 1

Create your Audio file.
MP3 file is preferred.
Use your recorded voice file or select licensed or royalty-free music (check applicable usage fees).

Step 2

Create your cover page graphic.
PNG file is preferred.
Canva is a great resource for this.

Step 3

Put it all together by using Headliner.app

- Log in
 - On the Create tab, Select Manual Audiograms, then Audiogram length up to 10mins
 - Select the "Upload" tab
 - Choose your Audio file (from Step 1)
 - Click Next
 - Choose the Aspect ratio depending on where you want to post your Audiogram
 - Click Next
 - Title your Project (give it a name)
 - Select a Waveform (you can opt to NOT have a waveform), click on the X to esc to the next step
 - Select an Image (from Step 2), upload, click the X to esc
- NOTE: You can choose to play around more on this page, but the waveform and image are most important.
- When you've added your choices, click Create
 - Open Advanced Editor to see your work
 - Play what you've just created
 - If you're happy with it, Click Export!
 - Download

CONGRATULATIONS on creating your new Audiogram!

Noteworthy!

Every step is customizable to your own taste / branding.

If you prefer individualized help, I offer 1on1 tutoring or group workshops.
